# A. H. S. News Items

Tuesday evening, March 26, the regular meeting of the Appomattox High School P.-T. A. was held in the school auditorium. The program consisted of a panel discussion of "What Your School Should Do For Your Child." The participants were parents of students currently enrolled in high school or parents of incoming eighth graders. The participants were not necessarily critical of the school program but they stated their views on what they wanted the school to do for their children.

Curriculum was discussed only slightly, and steps had already been taken to attempt to correct the main complaint. One of the patrons said that he believed that Algebra was too far removed from college-bound students, i. e. Algebra I and II have been offered to ninth and tenth graders in the past, however, Plane Geometry will be offered in the tenth grade and Algebra II will then be offered to eleventh graders, with Solid Geometry and Trigonometry being made available to those students that desire it in the twelfth grade. This will mean that students will be permitted to do some refresher work in Algebra II in the senior year of high school.

Generally speaking, the parents are interested in those intangible characteristics which are most imperative if one is to succeed in life, among them, cooperation, integrity, responsibility and good health. From experience we know that most people succeed or fail in life because of what they are, not necessarily what they know.

Some of the parents felt that we should offer more work in public speaking, while another parent pointed out we felt education should teach the moral, spiritual, and cultural values of our heritage but not forgetting the individual differences of each child.

Parents are very much the same all over the nation for many of the characteristics that parents of Appomattox County desire for their children are similar to those that were brought out by the White House Conference of 1955.

The administration and many of the teachers of Appomattox High School are interested in your questions and criticisms, good or bad, so that they can work with you to improve the educational program of this high school. For that reason we will welcome any questions that you may have. You may write, telephone, or come by the High School office and present those questions and we will attempt to write an article for this paper each week in answer to those questions.

**HIGHWAY WORK**

Highway work costing about $45,-000,000 will be given the go ahead signal April 1, when winter restrictions are removed on about 250 primary and secondary road projects. Construction will start on a full-scale basis as soon after that date as weather permits, a spokesman for the Department of Highways said today.

From November until April road building is restricted to bridge work, off-road grading or other operations that will not seriously interfere with traffic.

Unusually wet weather in some sections held back progress that under normal conditions would have been made during the winter. This was particularly true in Southwest Virginia where serious damage to many primary and secondary roads was caused by a flood that occurred in late January.

Construction on the $15,000,000 Rappahannock River Bridge between Greys Point and White Stone and on the $60,000,000 Hampton Roads bridge-tunnel between Hampton and Willoughby was continued through the winter. The Rappahannock River Bridge is expected to be opened by September this year and the bridge-tunnel by the end of the year. Both are revenue bond projects now being financed with regular state funds.

## NEWS AROUND TOWN

By Mrs. Calvin Robinson

I liked this one:

The owner of the house answered the bell to find a friend whom he hadn't seen for some time was at the door along with a large shaggy and rather muddy dog. Inviting them in they sat in the living room and talked about old times. The dog, after sniffing around finally hopped on the couch and settled down for a nap, much to the host's dismay.

Finally the guest rose to leave. "Aren't you forgetting your dog?" said the host.

"That's not my dog," said the guest. "I thought he was yours."

In driving around town, I have noticed some lovely new brick homes. A lot of building is going on in town and near town. Mr. and Mrs. D. E. Caldwell, Jr., are adding two new units and a T.V. Lounge to their Motor Court on Rt. 460.

Miss Mary Walker Evans, a student at the College of William and Mary, will arrive Tuesday for the spring vacation.

Friends here were sorry to hear of the death of Dr. J. M. Robeson, father of Mrs. William T. Coleman, formerly of Hilltop, Appomattox. The Colemans are now residing at 1608 Delmar Drive, Charlottesville. Mrs. Coleman holds a position at Miller & Rhoads in Charlottesville.

Covington, Ky.- When the top of his trailer truck was sheared off as he drove beneath an underpass, Marion Dixon, driver, shook his head in wonderment.
